THE HONGKONG DIRECTORY has again been enlarged and will be

THE CHEAPEST, MOST COMPLETE, AND MOST RELIABLE WORK OF THE KIND EVER PUBLISHED IN THE FAR EAST.

THE above named work, published at the Office of "THE HONGKONG TELEGRAPH," contains a Directory for the Ports in the large portion of Asia between Penang, in the Straits Settlements, and the Northern Chinese Ports, including Wladiwostock, Formosa, the Treaty Ports of China and Japan, Cochin-China, the Philippine Islands, Corea, British North Borneo, the British Colony of Hongkong, and the Portuguese Colony of Macao. It also contains the Principal Treaties between European countries and the United States and tre countries East of the Straits, including the Treaties and Conventions between China and Great Britain, France, Germany, Russia, the United States of America, Brazil, Japan, Peru, Spain, and Portugal; together with conditions of Trade, and the Port, Customs, Consular, and Harbour Regulations for the Ports of China and Japan; also descriptions of the various Ports, with the latest Trade Statistics, taken from the Reports of the Imperial Maritime Customs and other reliable sources.

The various Governments and Municipal Corporations, and all Public Bodies and Companies, Bankers, Merchants, Consuls, Professional men, and other Residents, have supplied the necessary matter, upon forms specially sent for that purpose so as to ensure accuracy. The Naval and Military portions have been taken from the latest published official lists and revised at Head-quarters; in fact, no pains have been spared to make "THE HONGKONG DIREC-TORY AND HONG LIST FOR THE FAR EAST" a handy and perfectly reliable book of reference for all classes.

In addition to the information enumerated above 'THE HONGKONG DIRECTORY AND HONG LIST FOR THE FAR EAST" for 1804 contains a carefully revised

Thus the Rangoon Time: - The registration of oplum with the Burmese is nothing more or less than another delicious farce added to the long list of frivolous measures that have emanated from inexperienced quarters, or been perpetrated by those persons who have no practical acquaintance with the people and country. In Rangoon, since the beginning of the year, about one thousand Burmans have registered their names as opium-smokers and obtained tickets to secure a daily supply on their shewing the tickets at the licensed oplum shops. On each ticket are merely entered the owner's age, name, and his wife's name; but this does not stop his visiting amendment relative to acquiring lands was half-a-dozen licensed opium shops in one day to some unlicensed friend. In fact, already there have been many cases discovered in which these simple frauds were being regularly worked.

THE Japan Mail remarks:- The Yomiwel newspaper, in pardonable exultation, describes the failure of the Chinese Steamship Company which, at one time, was expected to crush its Japanese rivals on the river between Seoul and Chemulpo. The Chinese Company had long been talked of but did not commence active operations until last autumn. It owned only one steamer, whereas its Japanese competitors had six boats, but the Chinese steamer, which cost \$120,000, could have taken all the little Japanese craft into its hold without my ch difficulty. Probably it was because of the imp and ing dimensions of the steamer that it was espected to monopolise the trade of the viver. but in point of fact its size proved its suin, for in the first place it required a large crew, and in the secord when filled with cargo it drew too much water to navigate the river conveniently. The prospects of the Company were excellent at the outset. In addition to a subsidy of \$5,000, yearly from Chins, it had also a contract with the Corean Government for the transport of 100,000 bales of rice from Chemulpo to Seon's Despite these advantages, a loss of \$5,000 was made on the working of the steamer for a half-year, the result being that the Company was ignominiously wound up and the steamer sold for 30,000 yes. Henceforth she is to have a Jap nese crew and will carry tribute sice on the Chinese coast.

NEWS of a serious nature, lays the Rangoom Times, has reached us from the Chinese frontier. where the Viceroy of Yunnan has issued a proclamation declaring the territory, in which the recent encounter between the Military Police and the Kachins took place, to be located within the boundaries of the Chinese Empire. This information is somewhat alarming, although our readers will remember that our special correspondent at the Viceregal Court at Yunan mentioned in his letter which we published a couple, of months ago, that China was advancing; claims to the successity of certain outlying parts: in the North of Upper Burms. They seem to have decidedly established their claims so far as some of the Kachin Hill tracts are: concerned. This bill, as a scientific frontier, is: a valuable stronghold wherein a few troops could! successfully oppose an advancing army, and the anxiety of England to retain possession of that part of the world has, most likely, been so much overdene that the eager cupidity of the Celevilals became thoroughly aroused. At any rate, after lengthy negotiations and the visit of the Viceroy of India to the Upper Burns frontier, we find from the special information just to hand, that China has taken the initiative responsibility of making a decisive move in the political gameinto which she has become more or less. invelgled by the diplomatic promptlygs of Russia and France. We are further told that; still more claims to the cession of additional; territory are being but forward; and we are assured that negotiations in this direction are proceeding between the Chinese Amban and Lord Rosebery direct.

(FROM OUR OWN CORRESPONDENT.)

10th January, 1804,

We are having a remarkably mild winter. Not a flake of snow has fallen on the T'alyuanfu plain, and even the surrounding mountains appear to be as free from snow as they are weather is cold. Nor is there as much sickness around us as there was this time last year, the

With the thermometer indicating spring that we have only just begun a new year. There is not much else to remind us of the fact. Christmas was pretty generally observed dinners given to the Chinese, and entertainments for the children who attend thissionary schools Four foreigners died in this province during 1893, all from typhus fever. Two of the number were connected with the Chinese Inland Mission, one was an American physician, and the other was a Roman Catholic missionary .- N. C. Daily

NEW AMERICAN TREATY WITH CHINA.

Losing sight of statistics, the imagination Square via Vicet Sucot and the Strand, and | great trade with China. The vision takes in an fight the police with chemicals if interfered with. Oriental people numbering countless millions, The French and English Press deplore the with an ancient civilization, the wealth of collisions that have take a place between the thousands of years' accretion, a conception in

which procelain towers, shining silk, ivory carvings, ton chests and "barbaric pearl and gold" mingle gorgeously: These millions are supposed to be ready to pour their wealth into American hands in exchange for the products of Western civilization. Even somewhat wellinformed persons, who discard the more glittering fictions of this view, believe that the sober possibilities of the China trade are something enormous, and that only a little enterprise in introducing our goods and getting the Chinese in the habit of using them is necessary to build up a business which will enrich those directly or indirectly connected therewith.

Some such considerations probably influence Secretary Gresham in his desire for a new Chinese treaty. He is said to have little faith in the future of our trade relations with Spanish America, and will recommend no appropriation to maintain the Bureau of American Republica. It is believed that he will negotiate a treaty with the newly arrived Chinese Envoy, Yung Yu, which will embrace a settlement of the immigration question and the extension of our commercial relations with Chins.

Of course we want all the profitable trade we can get with any people. The danger is that, in any convention into which this Administration may enter with Chins, the astute Celestials will get the better of the bargain. China will give the United States no trade advantages over Great Britain, France or Germany. Even if she had any desire to do so, those countries would make an effective protest. It is simply a question whether China can get what she wants cheaper from us than from them.

Next comes the question-what she wants. It should be noted that in our trade with China we take about three times as much merchandise from her as we send to her, and pay the difference in specie or buillon. China takes from us quicksilver, petroleum, cotton goods, a little flour. canned stuff, etc. The quicksilver shipments are small; Russia threatens to crowd out our petroleum; the flour and canned goods are for the consumption of a few thousand Americans and Europeans at treaty ports. The Chinese have begun to apply modern machinery to cotton manufacture, and with their thrifty business methods and cheap labour will soon supply the home market. It may as well be understood that the mass of the Chinese people have little or no use for anything we have to offer them. They raise their own rice and furnish their own clothes, and that is about all the average Chinaman in his own country has

There is also the fact to be considered that in any possible extension of trade with China it is likely to fall largely into Chinese hands. That is the business history of the neighbouring Asiatic countries and European colonies having large relations with China. It is also the experience of San Francisco. The Chinese merchant Is just as effective a competitor as the Chinese

If is, therefore, not worth while for Secretary Gresham to give much in the hope of getting | Hongkong Observatory, 26 h February, 1804. much from a Chinese commercial treaty. Especially he should avoid making concessions regarding Chinese immigration and residence, which the wily Orientals will undoubtedly seek. Neither should be, in the interests of commerce, neglect Latin America to run after a Chinese will-o'-the-wisp. There is a real opening for American trade in Mexico and Central and South America. It is a trade which has a future. For instance, we now export to either Central America, Venezuela, Colombia or Hayti more than we do to China. To either the Argentine Republic, Brazil, Mexico or Cuba we send from three to four times as much. Yet with better facilities of transportation and more effort on the part of our merchants these figures could be enlarged very greatly. We have a little instance in our local trade with Central America since the opposition steam line went into operation. Why Secretary Gresham should neglect was promoted by Harrison and Blaine and the Mr. LYN HARDING, Mr. GFO. MALLETT, WELLING HOUSE No. 27, Mosque this trade is unaccountable, unless because it McKinley bill.—San Francisco Bulletin.

COST AND WASTE OF WAR.

The cost of the Mexican War was \$66,000,000. In the last 200 years France has spent £993,000,000 in war.

At Bannockburn 135,000 men fought and 38,000 were killed or wounded. In less than 300 years Great Britain alone has

spent £1,359,000,000 in war. At Borodino 250,000 French and Russians fought, and the dead and wounded numbered

The estimated cost to both sides of the great Civil War in this country was \$6 500,000,000. At Waterloo there were 145,000 men on both After the surrender of the Turks at Plevna the

Russians took possession of \$17,000,000 worth It is estimated that since the Christian era began over 4,000,000 human beings have

perished in war. During the last few months of the U.S. Civil

War the expenses of the Government exceeded \$3,000,000 a day. The wars of the ninety years down to 1880 caused a war expenditure of \$15,235,000,000 and

the loss of 4 470,000 lives. The burning of Moscow by the Russians in order to drive out the French caused an estimated loss of over \$120,000,000. Over 1,000,000 French women were made

widows and 3,000,000 French children were made fatherless by Napoleon's campaigns. At Canne, where the Romans sustained the worst defeat they ever experienced, there were 146,000 men on the field, of whom 52,000 were

killed. The expense of be United States War Department in 1862 was \$304,000,000 f in 1863 it was \$500,000,000; in 1864 \$690,000,000; and in

1865 \$1,031,000,000. In times of war the armies of the European nations can be raised to 9 366,000 men, and the

daily expense will be nearly \$20,000,000. The cost of the world's wars since the Crimean War has been \$13,265 000,000, or enough to give a \$10 gold piece to every man, woman and child on the globe.

During the Franco-Prussian War the Germani fired 30,000,000 rifls carridges and 363,000 charges of artillery, killing or mortally wounding 77,000 Frenchmen, showing that 400 shots are required to kill or mortally wound one man, All the wars of Napoleon Bonaparte cost big various country £255,000,000, while the wars of Louis Napoleon cost France £442,000,000. The former made the enemy pay most of the expense; the expense of the wars waged by the latter was
